

Dear FCC,

My name is Brian Grossman and I'm a huge supporter and listener of Klove, a national radio station. It is so wonderful when I'm in a different part of the country and can listen to my favorite radio station. It would be a great crime of the first ammendment to shut down their small local stations. The people in my community and many others need the klove radio station to be broadcast where ever possible. Please do not make any stupid mistakes like you have in the past. Klove needs to be left alone, if not given more support by your organization.

Thanks,

Brian Grossman
